3 of 3 review helpful Best hiking experience book By srb I like this book a lot but it has strengths and weaknesses As a previous reviewer said sometimes the descriptions are inconsistent vacillating between lots of detail and micromanaging the turns then a will switch to long intervals with no description So honestly prepare for a wrong turn or backtracking I ve had to do that more than once using this From in town urban hikes and walks to scenic suburban forays to world class area wilderness hikes Washington D C offers great opportunities for nature lovers This book guides locals and visitors to the wealth of possibilities here for every season including a ridgetop trek on Massanutten Mountain a leisurely walk through Prince William Forest Park and a breathtaking tour of the 7 5 mile U S National Arboretum with its dwarf conifer forests dawn redwoods an Praise for a previously published edition A handy new guidebook close to home Potomac
