0 of 0 review helpful I bought this recommended book in order to begin my tent camping adventures By Bfly25 I bought this recommended book in order to begin my tent camping adventures in the Carolinas The reason I am giving this a 3 star is that thus far two of two popular campsites and maps are very outdated It would be great to have access to updated information on the authors website That said for general inf Written to steer campers away from concrete slabs and convoys of RVs The Best in Tent Camping The Carolinas is the only guide for tent camping in the state Pointing tent campers to the most scenic and serene campsites in the Palmetto and Tar Heel States this latest edition has a campground to suit nearly every camper s taste In North Carolina experience the rare spruce fir forest of Balsam Mountain Campground or the sand dunes of Frisco Campground Visi This is a great resource for families looking for scenic secluded locations where they can easily take the kids or for those folks who don t have the time or the inclination for a full scale backpacking trip Backpacker Magazine
