0 of 0 review helpful Good read By Heidi I will be going to the Keys in June and this book has given me some great pointers and places worth checking out Between this book and some online research I really feel like I will have a good plan on some of the stops to take advantage of It doesn't cover every single place and attraction but it covers a lot of the main things to do it is also an easy read so you don't feel Written by locals Fodor's travel guides have been offering expert advice for all tastes and budgets for 80 years A slender necklace of landfalls off the southern tip of Florida the Florida Keys are nirvana for anglers divers literature lovers and Jimmy Buffet wannabes The favorite of many travelers and the biggest tourist draw is Key West the southernmost point in the continental United States known for its sometimes raucous nightlife and sunset celeb In terms of comprehensiveness of coverage the very accessible format and the enthusiastic tone this series remains one of the best on the market ndash Booklist nbsp Fodor's super informative guidebooks are known for accuracy and attention to detail
