3 of 3 review helpful Great Info Great Layout By ChrisInNaples This book was exactly what I was looking for It starts with the Table of Contents which simply tells you which page the details for each hike is on then the Hike Locator Map so you have an idea where the hikes are without having to look up each one individually then a Hike at a Glance section so that you can easily narrow your choices by length difficulty "Hikers history buffs and birders will enjoy this veteran author's directions and thoughtful observations Molloy's difficulty ratings and habitat descriptions make this an excellent read for those wanting to explore the Caloosahatchee Sanibel and the many trails in this unique ecosystem — Susan Young coauthor of 25 Kayak Canoe Trips in East Central Florida About the Author Johnny Molloy is the author of more than fifty outdoor guide books including The Hiking Trails of Florida's National Forests Parks and Preserves Hiking the Florida
