Nevada (State Hiking Guides Series):

4 of 4 review helpful Not up to Falcon's normal standards By Jason Walz First I have to say I'm a huge fan of the Falcon series and have about two dozen of their books conservatively that I have used with much success in Montana Colorado California Oregon Idaho Arizona and Utah Usually I would give all of the falcon books four or five stars as they are some of the best hiking companions on the market Offering eighty hikes through the dramatic alpine peaks lush pine forests shady redrock canyons and shimmering desert salt flats this book is the only guide to the entire state From the Back Cover Offering eighty hikes through the dramatic alpine peaks lush pine forests shady redrock canyons and shimmering desert salt flats this book is the only guide to the entire state An expanded introduction includes information on family
