1 of 1 review helpful Handy reference but very limited By Dandelion This is exactly what it says a folding pocket guide It has a limited number of birds and does not show the pictures of the females We use it to start our observation and then go to a far better guide If you want something that is very light weight can resist rain and is a handy but simple guide this is a decent buy Buy it as cheaply as poss The Tarheel State is the permanent or migratory home of 473 species of birds including the state bird — the northern cardinal This beautifully illustrated guide highlights over 140 familiar and unique species and includes an ecoregion map featuring prominent bird viewing areas Laminated for durability this lightweight pocket sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike Made From the Back Cover North Carolina Birds An Introduction to Familiar Species is a must have reference guide for beginners and experts alike Whether you're on a nature hike or in your own backyard you'll want to take along a copy of this indispensable guide
