By Nate Swick : American Birding Association Field Guide to Birds of the Carolinas (American Birding Association State Field) mission statement the carolina bird club is a non profit organization that represents and supports the birding community in the carolinas through its website what compels birders to hunker down in dark often cramped structures an intimate view of avian lives but as with birds every bird has its own character and story American Birding Association Field Guide to Birds of the Carolinas (American Birding Association State Field):

1 of 1 review helpful Great addition to My Birding Library By Beverly V Gholson Very informative and a great addition to my birding library I generally prefer drawings but sometimes a photo provides information and insight that you can't get from a drawing So optimally you need to have access to both drawings and photos I also appreciate that this book is limited to the Carolinas Saves the floundering of looking through North and South Carolina together offer an impressive range of natural habitats for birds From the spruce fir woodlands of the Appalachians in the west to the rolling Piedmont hills and extensive pinelands all the way east to the saltwater marshes and bays of the barrier islands the Carolinas are a perfect place to see many types of birds From oystercatchers turnstones and avocets to warblers sparrows finches and everything in between the Carolinas are a bird About the Author Nate Swick is editor of the American Birding Association blog author of Birding for the Curious and a contributor to the 10 000 Birds blog Outside of birding he is an environmental educator and interpretive naturalist
